

Ladies Auxiliary of the Fleet Reserve Association

FRA Branches, LAFRA Units and Friends

The National President of the Ladies Auxiliary of the Fleet Reserve Association selects a special project to support during her term of office. As National President I have selected the America's Vet Dogs program as my project this year. The purpose of this letter is to solicit your help in promoting and supporting this very worthwhile and critically important project.

The America's Vet Dogs program helps our nation's heroes regain the lives they once led by partnering them with a specially trained animal. This program is an overall, "**Assistance Dog Program**" that utilizes specially trained service and guide dogs, plus state-of-the-art technology to enhance the lives of our disabled veterans.

A veteran who graduates from the Vet Dogs program receives a lifetime of aftercare, including home visits and refresher training as required. All of their services are provided **at no cost to the veteran** although the "total cost" of partnering just one Vet and one Dog is over **\$50,000.00**. America's Vet Dogs relies on voluntary public contributions to fund its efforts. With your help, we will be able to assist Vet Dogs in answering the call for our wounded heroes.

My goal is to procure a sufficient amount of money to train at least one dog for one American veteran; I hope that the Ladies Auxiliary of the Fleet Reserve can count on your assistance in helping us attain this goal. I remain in Loyalty, Protection and Service to you.

Thank you.
